

Press Release  
Nantes, 9 November 2018

## *Maisons du Monde BtoB Department brings a touch of style to the EquipHotel trade show*

For our 3rd participation in EquipHotel, the Maisons du Monde BtoB Department has a dedicated stand (Stand D146, Pavillon 3), fitted out in the style(s) of the brand. We will take this opportunity to present the 70 exclusive products designed specifically for businesses and our universes for the hotel and restaurant industries. This major event will also be an opportunity to combine our know-how and creativity with the talent of architects. The BtoB Department will set up several areas of Studio 18 in collaboration with the MHNA agency (Marc Hertrich and Nicolas Adnet): the bar, the social area and the restaurant of chefs which it will sponsor. The BtoB Department will also set up the Casa de Luz, hand in hand with Thierry Virvaire and Sandrine Alouf.

For more than 8 years, Maisons du Monde's BtoB team has supported businesses in their new or renovation projects, to create spaces with a unique style. With a website and 5 catalogues including a new BtoB catalogue, the BtoB Department offers more than 3,500 furnishings and 6,000 decorative accessories in our 7 successful styles.

Brand new this year: the BtoB Department has introduced an Interior Design service for our customers who want to hear about all the latest style-driven and functional ideas! We offer product suggestions and selection, moodboards, layout plans, 3D modelling etc.

*Let's get inspired!*
